Netherlands

MH17 Crash

Participants of the conference
tied ribbons to remember and
respect the victims of the
MH17 crash.

Ministry of Foreign Affairs of the
Netherlands

1. Key affected populations

- Attention to 'key populations'
- Stigma, discrimination, criminalization and exclusion
- WHO: new guidelines

2. Adolescents

- HIV most important cause of death.
- Poor sexual education and SRH.
- Young women: extra vulnerable
- Toolkit

Ministry of Foreign Affairs of the
Netherlands

3. Treatment

- Access increased
- Treatment as prevention
- Less attention for non-biomedical prevention

Ministry of Foreign Affairs of the
Netherlands

Way Forward

- Better focussed interventions (groups)
- Area-specific approaches (Hot-spots)
- Smart and targeted investments
- Risk

Netherlands

2018: 22nd International AIDS Conference

- Prospects for Amsterdam to be the organizer of the IAC in 2018.

“ There will be no end of AIDS without ensuring respect and dignity of all people, equity in access to health services and social justice.”

*Prof. Françoise Barré-Sinoussi,
President of IAS and Nobel price winner.*
