

# Share-Net International round table about the Global Financing Facility

**Share-Net International kindly invites you to the round table about the Global Financing Facility on the 8<sup>th</sup> of November.**

*“The Global Financing Facility in support of Every Woman Every Child was launched at the Financing for Development Conference in Addis Ababa in July 2015 as part of a global conversation about how to finance the SDGs, which requires a shift from thinking about billions of dollars to recognizing that we need trillions to achieve the ambitious targets that we have agreed upon. This shift is only possible through new approaches to financing that recognize that countries themselves are the engines of progress and that the role of external assistance is to support countries both to get more results from the existing resources and to increase the total volume of financing.”*
