

# Matchmaking Meet-Up: Impact evaluation in SDG international cooperation programmes

**What does impact evaluation of the future look like? With the current & new large Dutch international cooperation programs in mind, what can we do better in the future?**

Aims of this interactive meet-up:

- Share and exchange current approaches and common dilemmas in SRHR partnerships
- Identify lessons learned in Monitoring, Evaluation and Learning (MEL) and operational research that should inform the next cycle of the Dutch Ministry of Foreign Affairs' Strategic Partnership programmes.
- Discuss new scientific and programmatic approaches to interdisciplinary impact evaluation and how these could be applied to the context of the Strategic Partnerships

The meet-up facilitates a conversation (plenary and in break up sessions) between e.g. policymakers, practitioners and researchers. More information on the programme follows soon but some of the distinguished speakers are: Bart Romijn (Partos), Joost de Laat (Utrecht University), Choolwe Muzyamba (University of Amsterdam) and Maaïke van Veen (Rutgers).

## Join the conversation!

If you have any further questions, please feel free to contact Maria ([a.m.r.vanderharst@umc.nl](mailto:a.m.r.vanderharst@umc.nl)) or Nicole ([n.moran@kit.nl](mailto:n.moran@kit.nl))

## Save-The-Date

**9th April 2020**

**13.00 – 17:00**

**In de Ruimte  
Oudegracht 230 werf  
Utrecht**
