

Marie Stopes International

About us

Marie Stopes International

**A global organisation
providing personalised
contraception and safe
abortion services to women
and girls.**

A proven approach

**One that places our
clients at the heart of
everything.**

The challenge

214 million women with an unmet need for modern family planning

289,000 women die from pregnancy-related causes

25 million unsafe abortions

47,000 women die due to unsafe abortion

8 million women suffer disability as a result of complications from unsafe abortion

Taking services where people need them

About us

Marie Stopes International

Our commitment to our youngest clients

Provide all methods without bias

Every MSI provider will be trained and supported to be youth specialists

Engage adolescents in designing our programmes

Eliminate barriers to access through targeted policy change

Use evidence to consistently improve our programming to deliver scale and impact

Work in partnerships to support adolescents on the reproductive journey

Increasing access: our advocacy

Removing restrictions at national level

Influence international and national funding and policy

Implementation of existing policies

Grounded in service delivery expertise

25 significant policy changes secured since 2016

Our reach in 2016

25 million women using a method of contraception provided by us

3.6 million safe abortion and post-abortion care services

10.3 million client visits

32.7 million couple years of protection

Our impact in 2016

7.6m unintended pregnancies
averted

4.8m unsafe abortions
averted

21,600 maternal deaths
averted

Mexico City Policy

Without USAID funding, 1.6 million fewer women each year will be able to access services from an MSI provider. This could result in:

- 6.5 million unintended pregnancies
- 2.2 million abortions
- 2.1 million unsafe abortions
- 21,700 maternal deaths
- \$400 million in direct healthcare costs treating pregnancy, complications and unsafe abortion
