

## MEN'S SRHR – WEBINAR REPORT

---

A Share-Net Netherlands' webinar organised by the Community of Practice 'Engaging men and boys' on 23 February 2022.

Share-Net Netherlands is a knowledge platform on SRHR/HIV, its members consist of policy makers, NGO practitioners, researchers, service providers, students and other SRHR professionals. The Community of Practice '[Engaging men and boys](#)' commissioned a literature review exploring SRHR policies and services targeting men and boys. This paper argues that men and boys have their own sexual and reproductive health issues and concerns.

You can read and download the full position paper [here](#).

This webinar presented a next step to share the findings with Share-Net members and to engage with them on this important issue

### Objectives

The overall objective of the webinar was to encourage Share-Net International members to more explore and address men's and boy's SRHR issues. Specific objectives were to:

- Increase SNNL and SNI members' awareness and knowledge of men's SRHR;
- Share international good practices on addressing men's SRHR needs;
- Explore if and how SNI member consider including men's SRHR issues in their work.

## RE-VISITING THE PRESENTATIONS

---

### Setting the scene: Men's SRHR issues

**Dr. Paul L. Janssen** is a long-standing Share-Net member, independent expert and evaluator on social inequalities in health, with a focus on SRHR (access [recording](#) and [slides](#))

### Reflections from the Dutch Ministry of Foreign Affairs

**Pascal Grotenhuis** is Director Social Development at the Dutch Ministry of Foreign Affairs & Ambassador for Women's Rights & Gender Equality (access [recording](#))

## PARTICIPANTS REFLECTIONS:

Breaking gender norms is essential to make SRHR of everyone as succesfull as possible	I'd like to see more medical anthropologists and sociologists engaged with public health	A must! Needs to be addressed in CSE, services etc
It is critical and their right to have SRHR education and services.	We need to promote healthier models and more widespread acceptance of caring roles for men	Instrumental
Key to gender equality	SRHR of men and boys still have limitation and inequality	I love Meg's quote and I think it helps situate this conversation well: "Gender inequality limits girls and women particularly, but restrictive gender norms harm everyone."
How are we framing our interventions for ABYM in addressing SRHR ?	It's important to engage men and boys from the start in program and policy making and listen to their needs	
Money is needed for that as well	very important and critical	We ned to focus also on the needs of older men and their roles in promoting SRHR of younger members of their communities.
The Menstrual Discrimination is missing across the course of SRHR and ofcourse of Men and Boys.	CSE ! in shaping cultural appropriate norms and values	In Nepal, it it very much neglected are. Policy and strategy maker do not understand and want be part of health sector strategy/plan.
I want men to know feminism is also for men to live free based on their will!	There is a need to focus on mental health needs for ABYM	Very important to improve men and boys health
Women need to acknowledge men's needs	so happy that - at last - we broaden the focus to also include men and boys. For too long (but rightly) focus on women, which seemed to implicate that the SRHR community is not in favor of SRHR of men.	No focus in a crisis setting.
SRHR of boys and men is shooting two birds with one stones .If men and boys are empowered on SRHR automatically women and girls are protected	We need to understand and educate men and boys on their body and	Important to improve men and boys, women and girls health indicators
make SRHR of men & boys cross cutting in Share-Nets work.	Implementers need to consider the framework for engaging men and boys: Men as Partners, Men as Clients and Men as Change Agencies	Mens SHRH is a difficult topic to introduce in countries that still have patriarchalism as structuring powers

## Join Share-Net!

and become part of the knowledge platform on SRHR as either a member or a sponsor. When joining Share-Net, you will not only be contributing to our mission and vision, but you will also be able to enjoy specific member benefits:

- Have free access to all the meetings that we organise. (Non-members participate at cost-price)
- Participate in our working groups or CoPs, which is exclusive for members. These groups are crucial for agenda setting, organizing meetings and executing small research projects. For more information on the Share-Net Netherlands working groups and thematic groups please visit [www.share-net.nl/working-groups](http://www.share-net.nl/working-groups).
- Be elected in one of our governing bodies, the Steering Committee of the Netherlands or the Board of Share-Net International. All members are invited to our annual business meeting.
- Be eligible for our yearly call for proposals for the Share-Net International Small Grants facility.

For more information about our work and how to get involved. Please contact our Share-Net Netherlands Coordinator, Meike Stieglis at [info@share-net.nl](mailto:info@share-net.nl)
